Press release

Pumacy achieves DIN ISO 9001 certification

ISO 9001 certification of Pumacy's quality management system by Deutsche Gesellschaft zur Zertifizierung von Managementsystemen (DQS) provides an assurance of quality in the provision of services.

Bernburg, 23 March 2009 – Pumacy Technologies AG has achieved the ISO 9001:2008 certification of its processes by DQS GmbH (Deutsche Gesellschaft zur Zertifizierung von Managementsystemen). The introduction of a quality management system is a proof of Pumacy's commitment to its own internal quality requirements.

Dr. Toralf Kahlert, CEO of Pumacy Technologies AG, explains: "We have been providing our services at the highest possible level to our customers in the aerospace and many other industries for almost ten years. During that time we have modified our internal processes and procedures following the requirements of the ISO 9001. The assessment of our quality management system was the logical final step; nevertheless we are aware of the challenge to continually improve our products, services and process to satisfy our customers' quality requirements."

Quality management systems provide the very basics to establish maintain and continuously improve an organization's performance. This includes customer orientation, a process-oriented approach, cost reduction, and resource planning. "Enhanced customer orientation, a clear vision and strategic objectives help to achieve success in global markets. The successful certification is an important step in maintaining an organization's competitive position. The DQS is a competent authority on management systems helping organizations to meet their quality objectives,"

said Dagmar Blaha, manager marketing & business development DQS.
